

The Indiana Telephone Privacy law has proven to be an extremely good. Since this law was enforced, the amount of unwanted calls have been greatly reduced in my home. In the past, we have received up to 13 calls a day from telemarketers. The phone calls have been received before 8:00 AM and after 9:00 PM. Now, I don't have to look at Caller ID before answering; if the phone rings, it is from someone we know.

PLEASE--DO NOT CHANGE THE INDIANA TELEPHONE PRIVACY LAW!!!!
